ATTENTION - ROAD CLOSURE

Dear Washington County and St. George Resident,

The 40th Annual St. George Marathon will be run on SR-18 on **Saturday, October 1, 2016** from **6:00 a.m. – 1:30 p.m.**, with the starting line in Central and finish line at Vernon Worthen Park in St. George (250 E. 300 S.) Come join us for this great celebration!

In order to protect the 7000+ runners and over 1800 race volunteers, SR-18 will be closed from the starting line at Central/SR-18 on the north to the Ledges on the south throughout the race. Southbound and Northbound traffic will be diverted around the Marathon starting line through Central prior to the race. Travel on SR-18 between Central and the Ledges during the event may experience lengthy delays. Any on-course travel will be by escort only. Utah Highway Patrolmen and Washington County Sheriff's officers will be located at all intersections along the course to assist you if travel is absolutely necessary. The road reopening at Central will proceed south behind the race and reach Veyo at approximately 8:15 a.m. and Snow Canyon State Park at approximately 11:45 a.m.

SR-18 will be open to two way traffic from the Ledges south to Snow Canyon Parkway throughout the event. Traffic south bound from the Ledges will be directed over the flyovers at the parkway. Traffic from St. George northbound to the Ledges will only be accessible to locals by a left-hand turn off of Snow Canyon Parkway onto SR-18. There will be no northbound traffic on Bluff Street from Sunset Blvd to Red Hills/Snow Canyon Parkway. Please observe reduced speed limits. No parking or stopping will be permitted between the Ledges and Snow Canyon Parkway. Snow Canyon Parkway and Red Hills Parkway will be open to east and west traffic throughout the race.

We appreciate very much your continued support in helping us make the Marathon a safe event. If you have questions, please call us at (435) 627-4500. You can also access Marathon and traffic information on the city website at www.stgeorgemarathon.com.

Sincerely,

Kent Perkins
Race Director
St. George Marathon
